

COMER WRITES SOLONS.

He Proposes to Call Extra Session of the Alabama Legislature.

Montgomery, Ala., Sept. 30.—Governor Comer Friday gave out a copy of the letter which he is sending out to the members of the legislature in reference to the extra session, in which he says:

"It looks practically certain that it will be necessary to call the legislature in extra session. I will call for you to convene about November 7."

This letter to the members of the legislature says that all the railroads

GOV. B. B. COMER.

have put into effect the recently enacted laws regulating the rates with the exception of the Louisville and Nashville, the Central of Georgia, and their allied lines.

"Unfortunately for the state," says the governor, "the Louisville and Nashville has so long dominated all functions looking toward railroad legislation or control that they cannot realize the danger to the shipping interests of the state that will necessarily come from these conditions."

Continuing, the governor says: "It is now universally recognized that the protection of the people and the protection of the state demand that limitations should be established by law regulating freight charges."

That Tired Feeling.

If you are languid, depressed, incapable for work, it indicates that your liver is out of order. Herbine will assist nature to throw off headaches, rheumatism and ailments akin to nervousness and restore the energies and vitality of sound and perfect health. J. J. Hubbard, Temple, Texas, writes, "I have used Herbine for the past two years. It has done me more good than all the doctors. It is the best medicine ever made for chills and fever." 50c. Sold by W. M. Johnson.

Mouse Stops Lighting Plant.

Waynesboro, Ga., Sept. 30.—A small mouse jumped through a window in the city power house and was electrocuted Thursday night. Twenty thousand volts passed through its body, completely baking the rodent, burning out several fuses, short-circuiting the dynamo and stopping the lighting plant for about three hours. It also started a fire that was, however, soon put out.

The Cause of Many Sudden Deaths.

There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney-poisoned blood will attack the vital organs, causing catarrh of the bladder, or the kidneys themselves break down and waste away cell by cell. Bladder troubles almost always result from a derangement of the kidneys and a cure is obtained quickest by a proper treatment of the kidneys. If you are feeling badly you can make no mistake by taking Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy.

It corrects inability to hold urine and scalding pain in passing it, and overcomes that unpleasant necessity of being compelled to go often through the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases.

Swamp-Root is pleasant to take and is sold by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle of this wonderful new discovery and a book that tells all about it, both sent free by mail. Address, Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

HALL CAINE COMING.

Great British Author Will See Dramatization of his Book

Atlanta, Sept. 30.—Hall Caine, the great British novelist, is expected to arrive in Atlanta some time Monday in order to witness the first night production here of the dramatization of his book "The Bondman," with Wilton Lackaye in the role of Jason.

The Bondman had a long run in England, but this is the first year that it has ever been produced in America, the management of Lackaye securing the American rights to the play some time ago.

The initial performance was given in St. Louis, and Lackaye is now making a tour of the south before going to New York to give the play its Broadway baptism.

Believe Infant Was Murdered.

Macon, Ga., Sept. 30.—In a signed communication Sheriff George B. Robertson expresses the belief that the murder of Roscoe Arnold, the infant at the Door of Hope on Arch street, was committed by some one on the inside of the house. All officers connected with the sheriff's office believe some inmate did the deed and Coroner T. M. Young also expressed this belief immediately after the investigation in which a jury returned a verdict saying that unknown persons did the deed. All officers are fully convinced that the crime was committed at the home and they have been open in these statements since the stewards of the First Street Methodist church asked the co-operation of the officers of the law in finding the person who committed the crime. There are indications that the case will be pushed further.

Boy Dies of Blood Poisoning.

Atlanta, Sept. 30.—Johnnie Hornsby, aged 12 years, who had his legs crushed by a wagon three days ago, died late Friday afternoon from the effects of blood poisoning. On Tuesday, while returning from school, Cornell, Ga., to his home near Lake wood, he became entangled in a wagon, and his legs were horribly crushed by the big wheels. He was taken to the residence of his parents, Mr. and Mrs. J. W. Hornsby, Jr., and lingered in intense agony until late Friday afternoon.

Lest We Forget

Baby is restless, can't sleep at night, won't eat, cries spasmodically. A bottle of White's Cream Vermifuge never fails to cure. Every mother should give her baby White's Cream Vermifuge. So many times when the baby is pale and fretful, the mother does not know what to do. A bottle of this medicine would bring color to his cheeks and laughter to his eyes. Give it a trial. Sold by W. M. Johnson.

When He Enjoyed Life.

Among the tombs near the old Arlington mansion on the Chesapeake is the mausoleum of John Custis, the father of Martha Washington's first husband. It bears this suggestive inscription:

Beneath this Marble Tomb lies the Body of the Honorable John CUSTIS, Esq. Of the City of Williamsburg and Port of Boston. Formerly of Hungers Parish on the Eastern Shore of Virginia and the County of Northampton. The Place of his Nativity. Aged 71 years, and yet lived but seven years.

Which was the space of time he kept A Bachelor's House at Arlington On the Eastern Shore of Virginia.

It is said that before his marriage Custis did have a free and easy life. His marriage was of importance to his country, for he was the progenitor of several leading families. One would like to know Mrs. Custis' version of the life they had together, which he regarded as unworthy to be called living.—Youth's Companion.

Finding a Grave With an Egg.

The Miao-tze, a little known tribe in Asia, are very superstitious about death and will not bury a man until they have first tested the ground with an egg. This operation is very curious. While the body is being prepared for burial a number of Miao-tze, including the male relatives of the deceased, go out to the appointed spot bearing a large basket of eggs. Stooping down, one of the natives lets an egg drop softly on the ground. If it breaks it is considered an ill omen, and another spot is selected. In this way the party often wander about for hours, breaking eggs over the ground until they finally strike a place where the shell does not crack.

S.S.S. CURES SKIN DISEASES

No skin disease can exist without an underlying cause, and in most instances that cause is either a humor in the blood or an excess of fiery acids in this vital fluid. These humors and acids get into the blood, generally because of an inactive and sluggish condition of those members whose duty it is to collect and carry off the waste and refuse of the body. This unhealthy matter is left in the system to sour and ferment, and soon the circulation becomes charged with the acid poison. The blood, in its effort to rid itself of this foreign matter, begins to throw off the humors and acids through the pores and glands of the skin. These coming in contact with the delicate tissues and fibers with which the skin is so abundantly supplied produces irritation and inflammation on the surface, and Eczema, Acne, Tetter, Psoriasis, Salt Rheum, or some other troublesome and disfiguring skin disease is the result. External applications, while they soothe the itching, and are beneficial in keeping the skin clean, can never cure skin affections, because they do not reach the blood where the real trouble is located. A thorough cleansing of the blood is the only permanent cure for skin diseases. S. S. S., the greatest of all blood purifiers, is the best treatment. It cures by neutralizing the acids and removing the humors from the circulation so that the skin, instead of being irritated and diseased by the exuding acid matter, is nourished and soothed by a cooling, healthy stream of blood. S. S. S. goes down to the very bottom of the trouble, removes the foreign matter and thereby permanently cures every form of skin trouble. Do not expect to cure a blood disease with local applications alone, but begin the use of S. S. S., and when you have removed the cause the skin will be free from disease. Special book on Skin Diseases and any medical advice free. THE SWIFT SPECIFIC CO., ATLANTA, GA.

Famous Lilac Tree.

Chief among the many objects of interest in the gardens of Easton Lodge, Dunmow, the residence of the Earl and Countess of Warwick, is the magnificent blue tree which occupies a conspicuous position on the terrace. This tree is the finest specimen of its kind in the United Kingdom. It has a circumference of 120 feet and a height of sixteen feet, and it has so dense a growth of blossoms so profusely that when in flower it forms a huge bouquet of blue blossoms.

This tree is that commonly known as the Persian and described by the botanists as the *Chamaelirium*, but it is not a native of either Persia or China, but was raised in the famous botanical garden in 1795 by the hybridization of the true Persian lilac and the common lilac of British gardens.

It was of noble proportions at the middle of the last century and produced such a magnificent display of blossoms that in the flowering season Viscount Maynard, Lady Warwick's grandfather, used to make a special journey from London to enjoy the beauty and fragrance of the flowers. *Gardener's Magazine*.

A Substitute.

"You're rather a young man to be left in charge of a drug store," said the fussy old gentleman. "Have you any diploma?" "Why or no, sir," replied the drug clerk, "but we have a preparation of our own that's just as good."—Philadelphia Press.

Consolation.

"Steward, how long will it be before we get into the harbor?" "About an hour and a half, ma'am." "Oh, dear, I shall die before then." "Very likely, ma'am. But you'll be all right again when you've been on shore ten minutes."—Marine Journal.

NOTICE OF APPLICATION FOR TAX DEED UNDER SECTION 8 OF CHAPTER 4888, LAWS OF FLORIDA.

Notice is hereby given that A. J. DeCosta, Trustee, purchaser of Tax Certificate No. 301, dated the 2nd day of July, A. D. 1906, has filed said certificate in my office, and has made application for tax deed to issue in accordance with law.
